SUMMARY

As a passion Full Stack Developer and a final-year Software Engineering bachelor's degree student, I specialize in building scalable web applications using Angular and Django. At 21 years old, am honing my skills in modern web technologies as a Full Stack Web Developer at Xtendplex. My academic journey in Software Engineering fortifies my practical experiences, allowing me to understand and apply complex theoretical concepts to real-world problems

KEY SKILLS

- **Frontend:** React, Angular, Bootstrap, Tailwind, Ionic , Angular Material
- **Backend:** Node, Express, Django, Nest, FastAPI, Symfony
- **Database:** MongoDB, MySQL, PostgreSQL, CouchBase
- **Languages:** Python, JavaScript, Java , TypeScript , PHP
- **Tools:** Docker, Git, RESTful APIs, Azure , NGinx , JIRA, Bitbucket , jenkins

LANGUAGES

- **Arabic:** Native
- **English:** Intermediate (B1)
- **French:** Intermediate (B1)

EDUCATION

Bachelor's Degree in Computer Science

ISIMa - Institut Supérieur d'Informatique de Mahdia

2022-2025 (In Progress)

EXPERIENCES

Full stack WEB-Developer , XtendPlex Group (Angular - Django)(On site) March 2024 – Today

- Building scalable web applications using Angular (front-end) and Django (back-end) to meet client requirements.
- Gaining hands-on experience while applying knowledge from my Software Engineering degree to real-world development challenges
- Utilizing Docker for containerization to streamline deployment processes and ensure consistency across environments.

Intern – Web Developer,MagaTel [Germany](Remote)

Jan 2024 - Mar 2024

- Proposed a real-time call center dashboard to enhance operational workflows and improve team coordination.
- Developed and implemented secure employee management tools to safeguard data and ensure system integrity.
- Built an interactive e-commerce platform using Angular, ExpressJs, and RESTful APIs, automating client reservations and simplifying data management processes for greater efficiency.

Intern – Full Stack Developer , ETIXWAY [France](Remote)

Jun 2023 -July 2023

- Assisting in building a customized dashboard for the company using ReactJS to meet specific business requirements.
- Managing application state effectively using Redux for improved performance and maintainability.

Sales Representative - Tubowebs, London (Remote - Tunisia)

Jul 2023 – today

- Facilitating the sales of ready-to-launch projects such as Restaurant Management System and Hotel Management Solutions.
- Engaging with potential clients, understanding their business needs, and providing tailored software solutions.
- Collaborating with the Tubowebs team to ensure smooth communication and successful delivery of projects.

AWARDS AND RECOGNITION

1st Place, IEEE Xtreme 2024 (Mahdia, Tunisia)

- Ranked 1st in Mahdia, 15th in Tunisia, and 200th globally in the world's leading problem-solving challenge.

1st Place, IEEE Xtreme 2023 (Mahdia, Tunisia)

- Ranked 1st in Mahdia, 19th in Tunisia, and 700th globally in the world's most prestigious problem-solving competition.

1st Place, EliteCouncil Hackathon

- Won 1st place for solving a healthcare security problem by building an AI platform integrated with an RFID system to enhance security and streamline operations.

1st Place, Tunisia Game Show Hackathon (April 2023)

- Awarded 1st place for building the best landing page for the event, allowing users to sign in and register.
- Developed the landing page using the MERN stack (MongoDB, Express, React, Node.js) for a seamless, interactive user experience.

3rd Place, NMTC Hackathon (March 2023)

- Awarded 3rd place for developing a blockchain solution for a cryptocurrency project, showcasing technical skills in blockchain technology and crypto solutions.

VOLUNTEERING

- Vice Chairman of Computer Society chapter - IEEE ISIMa Student Branch - **janv. 2023 - today**
- HR Manager - Microsoft ISIMa Club - MIC - **octobre 2022 - today**
- Workshop Instructor : Led workshops on Angular, HTML, CSS, Git, and GitHub to help fellow students improve their technical skills

CERTIFICATIONS

- Microsoft Certified: Azure Fundamentals - **2023**
- HackerRank: Angular(Intermediate) -**2023**
- InfoLangue: Symfony5 - **2023**
- SoloLearn: Angular + nestJs - **2022**
- GoMyCode: Coding With Python - **2021**

SOFT SKILLS

- Facilitated collaboration among cross-functional teams, delivering a project ahead of schedule and enhancing client satisfaction.
- Successfully managed multiple weekly tasks across various projects, consistently meeting deadlines under tight schedules.
- Streamlined operational workflows, optimizing processes and fostering a more productive team environment.
