- typeScript
- ExpressJs ,MongoDB
- ReactJs
- Angular
- Python
- Symfony 5

Language

Arabic :Native

English:Bilingual

Fransh:Advanced

Soft Skills

Problem-Solving

Teamwork

Adaptability

PROFESSSIONAL EXPERIENCE

Freelancer

As a freelance Full Stack Developer, I specialize in the MEAN (MongoDB, Express.js, Angular, and Node.js) and MERN (MongoDB, Express.js, React.js, and Node.js) stacks. I am adept at delivering efficient web applications with a keen eye for detail, readability, and maintainability. I continuously update my skills to ensure the provision of modern and robust solutions to clients.

JUIN 2023
ETIXWAY I Paris France :Internship
Reactjs web developer

As an Intern at Etixway France, I am using ReactJS to help build a dashboard tailored to the company's unique needs. This involves designing and optimizing user interface components, managing application state with Redux, and conducting thorough testing to ensure code quality. This role is enhancing my technical skills and business acumen through practical application in a professional setting.

APRIL 2023
TGS (Tunisian Game Show) Hackathon

I'm thrilled to showcase our team's exceptional achievement in the TGS Hackathon, where we secured the first place. This remarkable experience allowed me to contribute to the development of a gaming website using the MERN stack, further honing my technical skills and problem-solving abilities. Throughout the hackathon, I actively engaged in collaborative teamwork, effectively communicating with my teammates and fellow participants. Networking and connecting with individuals who share a similar passion for technology and gaming was a valuable aspect of this experience. Being part of the winning team not only validates my capabilities but also highlights my commitment to excellence and continuous learning. I am excited to leverage the skills and connections gained from this achievement to contribute effectively and thrive in future professional endeavors.

Mars 2023
NMTC (National Microsoft Tunisian Camp) Hackathon

- Participated in the NMTC Hackathon, exploring the transformative potential of blockchain technology.
- Collaborated with a team to develop a project showcasing the real-world applications of blockchain.
- Expanded knowledge of blockchain and its innovative possibilities.
- Demonstrated problem-solving and critical thinking skills throughout the hackathon.
- Secured the third place in the competition, highlighting dedication and adaptability.
- Eager to continue exploring blockchain's potential and contribute to future projects.

Certificates

- The Angular + NestJS certification course with **SoloLearn: 2023**
- Python certification with **GOMYCODE: 2021**
- Symfony 5 Certification with **InfoLangues: 2023**
